Dallas - Fort Worth International Airport Terminal D

(2,100,000 S.F.) \$ 2.7 B 2001
DFW, Texas

Corgan, Associates / HNTB / HKS, Inc.

Terminal site includes and integrates a 298-room Grand Hyatt DFW along with an eight-level parking garage which has over 8,100 parking spaces and uses a Smart Technology System that lets guests know which floors are full. Air-conditioned sky bridges are provided with moving walkways and elevators connect the garage to the terminal, and landside arrivals canopy roof shields pedestrians from inclement weather as they enter and exit the terminal. Concession "village" areas consist of 100,000 sq ft of retail, including many dining and retail options. Concession "village" areas consist of 100,000 sq ft of retail, including many dining and retail options. High-speed Skylink airport train, connects Terminal D with all airport terminals.
